

COMMUNIQUE FROM THE BOLIVARIAN ALLIANCE FOR THE PEOPLES OF OUR AMERICA

The Bolivarian Alliance for the Peoples of Our America categorically condemns the recent offensive escalation of hostile and provocative statements issued by spokespeople for the United States government against the Bolivarian Republic of Venezuela. These are discredited figures, without moral authority, who resort to ridiculous falsehoods and pretexts in an attempt to create a scenario that our peoples already know all too well.

The Alliance clearly warns: if the United States dares to take the leap from psychological and media operations to a reckless military movement of aggression against Venezuela, the entire Caribbean would enter into unprecedented destabilization. No power must threaten regional peace or underestimate the conscience of our peoples. Any attempt to impose force on a sovereign nation would immediately affect the political, economic, and social stability of Latin America and the Caribbean as a whole, which should continue to be a Zone of Peace.

What Washington is intending to do today is not to defend principles or protect anyone; it is to recycle the same interventionist agenda as always, anchored in the discredited Monroe Doctrine, betting on reviving an oligarchic political class defeated by the Venezuelan people and rejected by the region. As on all previous occasions, they will fail and they will fail again.

The Bolivarian Alliance reaffirms its full support for the people and government of Venezuela and condemns this new media aggression and misinformation campaign, which only reflects the political decline of those who promote it. Our peoples will not be fooled by empty threats or despicable rhetoric.
